*"I'm the kind of person that does not like getting her photograph taken. Not only did Rachel put me right at ease and made the shoot bearable - and even enjoyable - but she also took some cracking photos. I've been able to use them for my book, my social media pages and my website. Rachel is a natural and I wouldn't hesitate to recommend her.*

*Rachel did a photo shoot for me and my business partner for our website and marketing materials. She did a wonderful job of the photos which we are starting to incorporate into our materials. She was extremely professional, had some good suggestions regarding what might and might not work. Her small business package is also very affordable which was really important to us too. I can highly recommend her service.*

*I can highly recommend Rachel for commercial photography. Rachel took the cover photo for the School Guide Magazine and has supplied photography for features in the both the School Guide and Nursery Guide. Rachel has a fantastic manner that gets the best out of the models and is very patient ( especially with the wee ones) She provides a great selections of proofs to choose from and responds quickly to emails. Rachel is very professional and offers a great service that has been extremely valuable to my publishing business'*
